FIRST MONORAIL STREET ROAD FOR CITY ISLANDERS

P. S. Board Sanctions Building Line to Replace Horse Car System.

As a result of action by the Public Service Commission at its bi-weeking meeting to-day construction work upon the first monorail passenger railroad operated in any municipality in America will be begun soon on the line of the Pelham Park Railroad and the City Island Railroad, which jointly operate between Bartow station and the lower end of City Island.

The matter came up on the application of the American Monorail Company, of which Bion L. Burrows, former secretary to the late Rapid Transit Commission, is president. Testimony has been taken as to the practicability of the road by experts and as to the need of some new plan of transportation by City Island and other residents in the vicinity. The proposed line will have three and a half miles of trackage. It will replace the present inefficient system of horse car conveyance, against which the City Islanders have been protesting for

The Monorali Company now controls the stock of the two-horse car lines, which were previously owned by the Interborough Rapid Transit Company. Ultimately there may be wide extensions of the system throughout the Bronx and Westchester County. Construction on the City Island line will be begun at once, it is announced.

PASTOR HUNTS FOR

Mr. Edgson Gave Joseph Andre Shelter-Now He's Missing, So Is Cash.

The Rev. Clement Edgson, pastor of the Noble Street Presbyterian Church, Williamsburg, his wife, Charles Rockliffe, the sexton, and the sexton's wife all started out to-day to play sleuth, the object of their search being Joseph Andre, a pink-faced youth who, they

say, has deceived them cruelly. Last Thursday night this youth called on the Rev. Mr. Edgson and asked for food and shelter. He said he had studied for the ministry, but had no money to continue his studies; that he couldn't find work and was about down and out. He also said he was a member of the Long Island City Y. M. C. A.

The minister took him.

The minister took him in, gave him a little room in the parsonage and gave him clothes and food. In return the youth did odd jobs around the church He said he was tineteen years old, and his youth and persuasive ways made everybody around the place like him.

His popularity grew until to-day, when it took a sudden drop. Mrs. Edgson found her bureau drawer broken open. Twenty-one dollars and numerous articles of jewelry were missing. When Andre was called he didn't respond and a thorough search for him was unsuccessful. Now the police are on his trail and Mr. Maker. says he will be more careful in fu whom he takes in out of the night.

Mysterious "Black Bag."

The Black Bag! What is in it? That's the mystery. And it's worth your while to solve it. See next Monday's Evening World.

Saks Cushion-Flex Shoes for Women, at \$4

It has always been easy to obtain a "comfortable" shoe—one roomy enough for the foot usually provides comfort - but mere roominess does not satisfy the fastidious ideas of those who must have fraceful footwear as well.

The Saks Cushion-Flex Shoe is designed primarily for comfort—and upon this point we doubt if its equal has yet been produced. But—it is also a graceful, distinctive, beautifully modelled shoe that would justify any woman's admiration.

A resilient inner cushion and super-flexible soles make this shoe most restful and comforting. Twelve models; all leathers-button or lace.
